EDUCATION

Master of Science in Computer Science,

University of Massachusetts Dartmouth, MA

Sep'17 - May19

Bachelor of Engineering in Computer Engineering,

Don Bosco Institute of Technology (DBIT), Mumbai, India

Jun'11 - May15

WORK EXPERIENCE

Product Designer, EmendoAI

Jun'25– Present

- Leading the end-to-end design of EmendoAI's construction management and subscription platforms, focusing on intuitive UX, consistency, and accessibility.
- Collaborate with founders, developers, product managers and designers to prioritize UX tasks, mentor peers, and ensure cohesive design standards across web and mobile apps.
- Drive usability testing, feature prioritization, and continuous improvements aligned with user behavior insights and business goals.
- Enhance user adoption through low-friction UI, modern interaction flows, and mobile-first design practices.

Web Designer/Developer, MATC Group

Mar'24 – Feb'25

- Led end-to-end design of dynamic web applications with a strong focus on user experience, information architecture, and responsive UI design; created wireframes, interactive prototypes, and high-fidelity mockups in Figma.
- Conducted user research, competitive analysis, and usability testing to inform design decisions and refine interaction patterns.
- Defined and maintained scalable design systems, UI components, and accessibility standards to ensure visual and functional consistency across platforms.
- Collaborated with stakeholders and developers to translate complex business goals into intuitive design solutions, ensuring seamless handoffs and documentation throughout the design-to-development process.

Web Designer/Developer, Boston University

Feb'19 – Jan'24

- Spearheaded UI/UX design for academic web applications in the College of Engineering, developing detailed user journeys, wireframes, and prototypes using Figma for tools supporting over 2000 students each semester.
- Designed the full user interface and experience of the "Course Sequencing Tool," focusing on clarity, interactivity, and accessibility for academic planning. Facilitated stakeholder workshops to gather design requirements, validate user needs, and iteratively refine UI through feedback and usability testing.
- Collaborated with developers to ensure alignment between design specs and implementation, using HTML5, CSS3, React, TypeScript, and Bootstrap for development. Oversaw the visual and interaction design of responsive, ensuring WCAG accessibility compliance and intuitive usability.
- Helped define content strategy, visual hierarchy, and brand integration into all web experiences.

Software Engineer, SME MaXX

Jul'16 - Jul'17

- Crafted a customized iteration of "MaXX Deals," a cashback-based ecommerce platform, collaborating with product managers to translate business requirements into scalable technical solutions aligned with project goals.

Software Engineer, Freelance

Jun'15 - Jun'16

- Developed a "Patient Monitoring System" for a private clinic using open-source development tools by collaborating with a team of healthcare experts to design and develop full stack web applications.

SKILLS

- **Design & Collaboration Tools:** Figma, Adobe Photoshop, Illustrator, Notion, Confluence, Asana, Slack
- **UX & Product Design:** Wireframing, Prototyping, User Flows, Information Architecture, Usability Testing, Interaction Design, Design Systems, Accessibility (WCAG)
- **Front-End Knowledge:** HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap
- **Content Management Systems:** WordPress, Wix, Elementor
