

SRUSHTI UPADHYAY

PRODUCT DESIGNER

India · [Portfolio](#) · [LinkedIn](#) · srushtiupadhyay@gmail.com · +91 8108790810

PROFILE

Product Designer with 5+ years of design experience and 9 years in total across design and engineering, focused on turning complex workflows, dense information, and business rules into clear, usable B2B and enterprise SaaS products. Experienced across user research, interaction design, information architecture, prototyping, design systems, and frontend implementation.

EXPERIENCE

Product Designer II

Mar 2024 – Apr 2026

MATC Group

- Designed B2B web applications from user flows and information architecture through wireframes, prototypes, and production-ready UI, using Figma Make, Stitch, and Claude to speed up early exploration.
- Built a reusable design system and interaction patterns in Figma, improving consistency across workflows and reducing ambiguity at handoff.
- Partnered cross-functionally with product stakeholders and engineers to weigh trade-offs, refine requirements, inform product strategy, and carry designs from concept through implementation.
- Applied user research and usability feedback to simplify dense workflows, clarify system states, and improve task completion.

Product Designer (Part-time)

Jun 2025 – Oct 2025

EmendoAI

- Designed and owned end-to-end workflows for construction management and subscription experiences across web and mobile applications.
- Translated complex business requirements into user flows, information architecture, wireframes, prototypes, and production-ready UI in Figma, using Figma Make and Stitch for early concepts.
- Worked closely with founders, product stakeholders, and engineers to prioritize features, resolve UX issues, and keep patterns consistent across the product.
- Contributed to usability testing, accessibility, and iterative improvements based on user feedback and product goals.

UX Designer/Developer

Feb 2019 – Jan 2024

Boston University

- Led UX and interaction design for academic planning applications used by students and advisors each semester, translating complex degree requirements into clearer planning workflows.
- Redesigned Degree Map around auto-save, drag-and-drop validation, and clearer semester states, cutting bug reports by about 80%.
- Partnered with faculty advisors and developers, then designed and built responsive interfaces from prototype through production.
- Owned product experiences from requirements through implementation, aligning stakeholders and translating user and business needs into clear, scalable workflows.

Web Developer

Jul 2016 – Jul 2017

SME MaXX

- Built a customized cashback platform resembling an ecommerce experience, collaborating with product management to translate business requirements into technical solutions.
- Identified and implemented solutions to complex technical challenges, contributing to the project's overall success.

UX Designer/Developer

Jun 2015 – Jun 2016

Freelance

- Designed and built a full-stack Patient Monitoring System for a private clinic, replacing an error-prone spreadsheet process and cutting billing time by 60%.
- Partnered with healthcare experts and clients to translate business requirements into interface design and database schema, improving patient retention by about 30% over two years of daily use.

EDUCATION

M.S. Computer Science

Sep 2017 – May 2019

University of Massachusetts Dartmouth

B.E. Computer Engineering

Jun 2011 – May 2015

Don Bosco Institute of Technology, Mumbai

SKILLS

Design Figma, User Research, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, Design Systems, Accessibility, Product Strategy, Stakeholder Management

Tools Notion, Confluence, Asana, Slack, Adobe Photoshop, Miro

AI Tools Figma Make, ChatGPT, Claude, Stitch

Development HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap, PHP, Laravel, MySQL, REST APIs, JSON
