

SRUSHTI UPADHYAY

PRODUCT DESIGNER

India · [Portfolio](#) · [LinkedIn](#) · srushtiupadhyay@gmail.com · +91 8108790810

PROFILE

Product Designer with a strong engineering foundation, focused on turning complex workflows, dense information, and business rules into clear, usable products. Experienced across interaction design, information architecture, prototyping, design systems, and frontend implementation.

EXPERIENCE

Product Designer II

Mar 2024 – Apr 2026

MATC Group

- Led product design across web applications, translating complex requirements into user flows, information architecture, wireframes, prototypes, and production-ready UI.
- Established reusable interaction patterns and design systems in Figma to improve consistency across workflows and reduce design ambiguity during handoff.
- Collaborated with product stakeholders and engineers to evaluate trade-offs, refine requirements, and take designs from early concepts through implementation.
- Used usability feedback and product constraints to simplify dense workflows, clarify system states, and improve task completion.

Product Designer (Part-time)

Jun 2025 – Oct 2025

EmendoAI

- Led end-to-end product design for construction management and subscription workflows across web and mobile applications.
- Translated complex business requirements into user flows, information architecture, wireframes, prototypes, and production-ready UI in Figma.
- Collaborated with founders, product stakeholders, and engineers to prioritize features, resolve UX issues, and maintain consistent patterns across the product.
- Contributed to usability testing, accessibility, and iterative improvements based on user feedback and product goals.

UX Designer/Developer

Feb 2019 – Jan 2024

Boston University

- Led UX and interaction design for academic planning applications used by 2,000+ students each semester, translating complex degree requirements into clearer planning workflows.
- Redesigned Degree Map around auto-save, drag-and-drop validation, clearer semester states, and reduced interaction friction.
- Partnered with faculty advisors and developers to translate requirements into responsive interfaces, prototypes, and production implementations.
- Owned product experiences from requirements through implementation, translating user and business needs into clear, scalable workflows.

Web Developer

Jul 2016 – Jul 2017

SME MaXX

- Built a customized cashback platform resembling an ecommerce experience, collaborating with product management to translate business requirements into technical solutions.
- Identified and implemented solutions to complex technical challenges, contributing to the project's overall success.

UX Designer/Developer

Jun 2015 – Jun 2016

Freelance

- Designed and built a full-stack Patient Monitoring System for a private clinic, owning the experience from user flows through implementation.
- Partnered with healthcare experts and clients to translate business requirements into interface design and database schema, shaping the product end-to-end.

EDUCATION

M.S. Computer Science

Sep 2017 – May 2019

University of Massachusetts Dartmouth

B.E. Computer Engineering

Jun 2011 – May 2015

Don Bosco Institute of Technology, Mumbai

SKILLS

Design Figma, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, Design Systems, Accessibility, Product Strategy

Tools Notion, Confluence, Asana, Slack, Adobe Photoshop, Miro

Development HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap, PHP, Laravel, MySQL, REST APIs, JSON
